Summary

Enthusiastic and motivated Computer Science student at Egerton University and an aspiring software engineer. Looking for my first professional experience and an internship opportunity.

Proficient in C, Java, JavaScript, HTML and CSS.

I have experience working with object oriented programming languages such as java and building websites using HTML, CSS and JavaScript .

I am eager and willing to learn and take on additional responsibilities throughout an internship and to apply my knowledge to an internship experience where I can further develop my software engineering skills.
